

ICPN Professional Development Workshop

Useful Treatment Strategies: Understanding and Supporting Persons with an Intellectual/Developmental Disability Who Have Been Diagnosed with Borderline Personality Disorder

Presented by Mike Jersey, LPC/ICPN Clinician

Borderline Personality Disorder is a serious mental disorder marked by a pattern of ongoing instability in moods, behavior, self-image, and functioning. These experiences often result in impulsive actions and unstable relationships. This learning experience will provide an overview regarding the features of Borderline Personality Disorder as well as discuss how Borderline Personality Disorder may present in people with Developmental Disabilities. In addition to this, an overview of treatment strategies for managing difficult behavioral incidents common for people with Borderline Personality Disorder will be provided.

Wednesday, February 7, 2018

10:00 a.m. - 12:00 p.m.
